

Expat Group stabilized their transactions with Dynamics integration

Since 1994, The Expat Group has established a reputation in the real estate investment & property management, construction and contracting, leisure and resorts, media, turnkey projects and management consultancy. Headquartered in Bangalore, India, Expat has operations across India and MEA.

Industry: Real Estate & Construction

Location: Bangalore, India

Size: 100-500 Employees

Expat had Dynamics CRM and LAMS system for handling the real estate and Investment transactions. Orders were placed in CRM and data were pushed into the system & vice versa. An integration was required to make payments for the orders placed and managing AR Process.

- Implemented Dynamics AX 2012
- Integration with Dynamics CRM

Dynamics AX and CRM were integrated to make the orders and payments smooth and managing the AR Process in quick time. Stabilizing and managing the data reconciliation was done using web services. Expat was then able to handle their transactions smoothly and efficiently without much manual hassles.
