Run multiple Payments

Track all your planned payments, get notified and get it posted with the Dynamics 365 Business central solution, ensure the invoice payments, accounting impact, and customer balance updates properly.

Why CETAS PDC Manager

The dynamic nature of industry calls for the innovative usage and adaptation of existing technologies to address the complex challenges that are unique to each business and customers. Post Dated Cheque, a solution developed on the global ERP platform – Dynamics 365 Business Central, addresses these needs. Post Dated Cheque is designed to handle the payments of vendors and customers for the business when the cheques issued are for the upcoming dates. This majorly reduces the efforts taken to post the payments of this kind
